11 September 2026, The Netherlands

Dear vFAS and Orde van advocaten,

I would like to ask what you have done or intent to do regarding legislation for the protection and getting justice for lawyers that fall victim to human beings that violate human rights of said lawyers. Do you plan on going or have you gone to the House of Representatives to ask for new legislation if it is not yet in place? Take for example meester Özge Öztürk, what happened to her described in this article:

<https://www.rtl.nl/nieuws/artikel/5649388/familierecht-advocaten-bedreiging-stalking>.

Her human rights were violated but did she get retributive and restorative justice? How about other attorneys? I as a citizen of The Netherlands wants this guaranteed for them.

But for that adequate legislation is required. You after all, are professionals and experts regarding how the legal system works, and what laws could help. You are citizens as well: We share the moral obligation to protect each other.

In my opinion giving a reaction/response in a news article on the website of RTL nieuws is simply not enough. Not as a citizen, nor as a professional organization. Therefore the question what you have done, are doing and plan to do to help the professionals in need of protection.

André Schepers

A concerned citizen of The Netherlands
